

CEO Executive Coaching

Think Bigger. Lead Smarter.

Leading a company can be exhilarating—but also isolating. As CEO, the pressure to perform, set direction, and inspire others often leaves little space to think out loud or challenge your own assumptions. The wisest leaders secure a trusted thought-partner—one who pauses the noise, reframes the problem, and turns vision into measurable performance. That’s exactly what an inVantage engagement provides.

As [Certified Business Guides](#)—and seasoned former CEOs and CHROs—we understand the weight of the role and bring more than classic executive coaching. We fuse data-driven assessments with compassionate, future-focused dialogue, aligning your unique strengths to the company’s highest-stakes priorities. The outcome is sharper decisions, stronger relationships, and faster impact for growth-minded CEOs.

Every session is powered by a robust toolbox of proven frameworks, so you tackle leadership and business issues with tools you can apply immediately. [Expect clearer thinking, sharper leadership, and progress you can measure where it matters most.](#)

*You are the story your company tells.
Your thinking, your behavior, your standards – they scale.*

What to Expect...

- **Trusted Thought Partner** – A confidential sounding board who probes, listens, and challenges—never “fixes.”
- **Whole-Leader Development** – Coaching the person *and* the business through EQ-i 2.0™, DiSC® Work of Leaders, and real-time issue processing.
- **Insight + Accountability** – Clear goals, 30-day action plans, and progress tracked against measurable outcomes. Keeps the journey structured, predictable, and comfortable.

Six-Month Engagement...

Schedule

3 hour per month
(2 sessions/mo)

18 hours total of 1:1 coaching

+ 8 hrs ad-hoc support
